LiveStream Pro
Simple. Reliable. Limitless.

LiveStream Pro is our newest, user-friendly, enterprise-grade solution for broadcasting events and connecting audiences worldwide. Thanks to its versatility, reliable streaming, and interactivity features - successful live events are at your fingertips. And if you don't feel like doing it all by yourself, you can rely on our 24/7 professional support.

Highlights

Simple, customizable setup

Set up your livestream in just a few minutes, customize your event to match your brand's design, and start broadcasting.

In your own hands

Take full control over the visuals and create visually appealing streaming experiences directly in your browser without any additional equipment or prior knowledge.

Inclusive and multilingual with AI

The multilingual, accessible streaming functions, including AI-generated and simultaneously translated live subtitles in up to 29 languages, maximize your global reach.

Improved audience analytics

Our powerful analytics supports you to better understand your audience's behavior and evaluate the success of your events.

Best viewer experience

Full HD, buffer-free, and industry-leading stability for the best viewer experience, no matter the size, location, device, or bandwidth of your audience.

The peace of mind you deserve

We provide the latest security standards, full redundancy and failover mechanisms, full GDPR compliance and the option for our 24/7 professional support.

Fully customizable following your corporate identity and available in dark and light mode

Premium user experience - LSPro Studio ensures easier management of your events

Functions for moderation and sorting of Chat/Q&A messages by the operator

GDPR compliance and multiple security mechanisms for secure integrations (Referrer, SSO, Token protection)
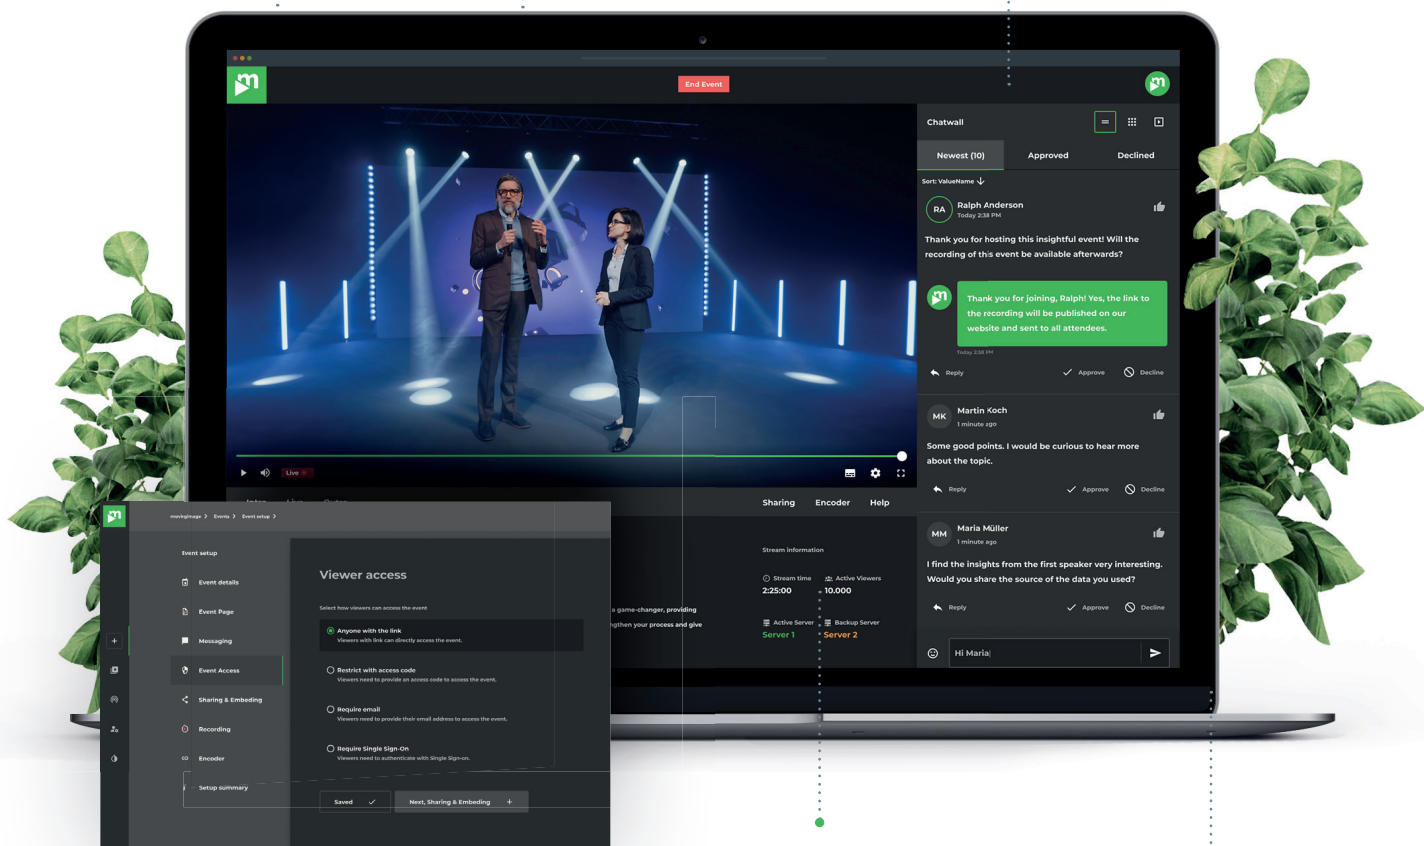

(Geo)redundant streaming setup including automatic failover

More engaging and improved viewer experience – no matter the device

Still wondering why you should livestream your events…?

10 to 20 times longer views of live events, compared to On-Demand content

75% lower costs than for in-person events, meaning more regular and meaningful engagement with your audience

Up to 4 times increase in ROI of marketing activities with livestreaming
