

About us

**movingimage empowers companies
to create value through video.**

From creation to hosting and distribution, movingimage offers a one-stop-shop for all video applications, live and on-demand. Its centralized cloud-based solution enables companies to manage all types of video content centrally and efficiently and stream it in superior quality on any end device, creating a unique video experience for their audience.

The platform can be seamlessly integrated into existing IT environments for content, digital asset, and product information management and meets the most stringent security standards. Next to the SaaS products, movingimage's video experts support companies of any size in creating high-quality corporate videos, and in delivering livestreaming excellence especially for complex live events.

The Berlin specialist's GDPR-compliant solution has been trusted by the largest companies in the DACH region for over 15 years.
