

Virtual Events

Organize impressive virtual and hybrid events with the versatile event platform Virtual Events* and wow your online attendees with unparalleled streaming quality and interactive engagement features.

- ✓ Event creation in under 10 minutes
- ✓ Integrate 50+ apps
- ✓ 100% personalizable

Easy & Quick Setup

You can create an impressive event in a matter of minutes, even without having technical experience. The platform assists you along the way by mapping the entire event journey: from creation, to invitation management, to final analysis.

Interactive Tools boost Engagement

Live polls and the option to integrate whiteboards and other interactive tools promote the engagement of your attendees.

Virtual Networking

Chats, individual meetings, and a match-making feature offer the same networking options that you would have in person. Your attendees can create their own profiles and network amongst themselves.

Customizable Design and Features

Personalize the event platform to reflect your company's corporate design and tailor the various features to suit your needs.

Your Events: Now Virtual!

Conferences & Exhibitions

Impress your audience with on-stage presentations and give your attendees room to network.

Team Events

Organize your team events easily online and make it possible for all your employees to come together – wherever they are.

Employee Gatherings

Bring your employees up to date on current results, discuss quarterly goals, or plan new projects together.

Workshops

Promote your team's creativity. Poll and whiteboard tools allow attendees to interact and create space for new, off-the-cuff ideas.

Training

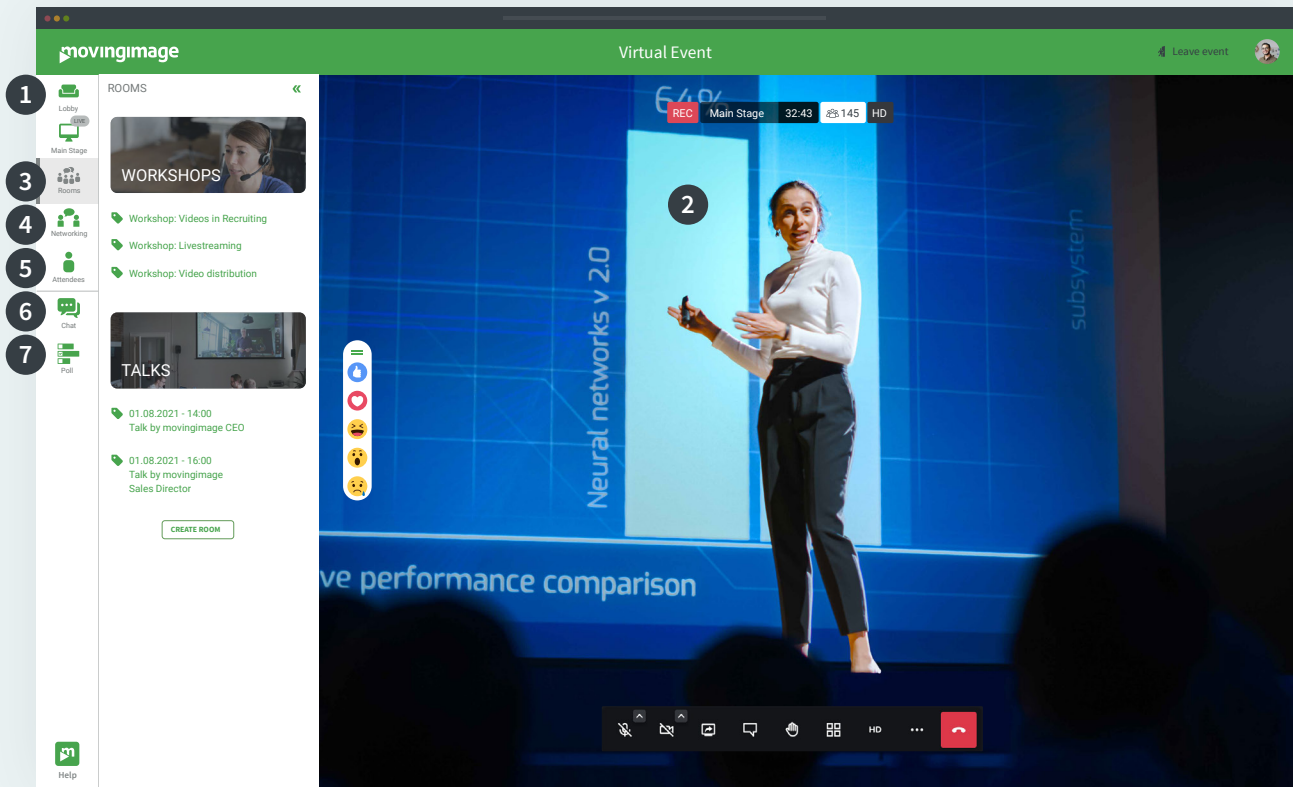

Train your staff and give their careers a boost. Interactive areas and integrations help create a motivational environment.

Hybrid Events

Supplement your in-person event by streaming it on the virtual platform at the same time.

Features

1 Lobby

Present the agenda, information about the speaker, or your sponsors' logo.

2 Main Stage

Here, viewers can follow the speeches, presentations, and discussions.

3 Rooms

This is where small groups can come to exchange ideas and information, network, or collaborate.

4 Networking

Viewers can network and have virtual one-on-one conversations.

5 Attendees

Attendees can filter who they have conversations with according to various criteria.

6 Global Chat

You can communicate with all of the attendees and give them general information using the chat feature.

7 Polls

Set up live polls and let your audience make their decisions in real time.

Web Conferences

You can even incorporate the webcast and systems such as Zoom.

Whiteboards and Tools

Web applications, photos, videos, and tools can be integrated into the stream.
